Global manufacture site

Brief Introduction

Founded in 1990, DEGSON is a global solution provider of electrical, electronic and industrial connectors. As a National High-tech enterprise, DEGSON owns the UL and VDE certified laboratory. The company achieved ISO9001, ISO14001, ISO80079-34, ISO/TS22163 and IATF16949 management system certifications.

DEGSON is engaged in supplying highly reliable and durable products to serve global customers. The company has a market-leading capability of mould processing, automatic manufacturing and advanced testing. DEGSON has the complete engineering ability to support global customers with the professional customization solution and value-added service.

DEGSON products are widely recognized in China, the USA, Germany, the UK, Italy, Spain, Turkey, Japan, South Korea, Singapore, etc. totally hundred countries and regions. DEGSON supply high quality products and provide professional services globally in the industry sectors likely industrial automation, instrument, electric power, railway, marine and offshore, new energy, elevator, lighting, security, machinery, etc. The company won the recognition from partners among Fortune 500 and industry leading enterprises.

Based on the business philosophy of “pragmatic innovation, responsibility, integrity, harmonious development, regulation and win-win”, DEGSON continuously integrates professional technical resources, R&D innovation, product manufacturing and technology application capabilities. Relying on global sales network, DEGSON aims to supply series of multiple varieties of high-quality products and services. We provide global customers with professional and quick connected application solutions, help customers continue to create value. DEGSON is making contributions to creating a smart and interconnected world.

COMPANY HISTORY

SALES NETWORK

Products have been exported to more than 100 countries and areas in the global.

First UL & VDE Certified Laboratory in Asia

Strategic cooperation with UL and VDE

① The general manager of UL global energy & technology division visit our company

② Sven Ohrke, President of VDE global services, discusses mutual strategic cooperation in DEGSON

③ VDE Laboratory Accreditation: In July 2010, VDE issued the "VDE Authorized Laboratory" certificate to DEGSON laboratory.

UL laboratory accreditation: UL formally issued "UL WTD" certificate to DEGSON in March 2013. In April, 2016, UL-CTDP. In December, 2016, VDE-TDAP. In January, 2017, Pass IRIS system audit.

UL Certificates:10,Covering 4000+Products VDE Certificates:175,Covering 3000+Products

TUV certificate

EAC certificate

CE certificate

European invention patent

PLUGGABLE TERMINAL BLOCKS

Plug-in terminal blocks, provide the wire size from 0.08mm² to 10mm². Available with different pitches from 2.5mm to 10.16mm. Choosing insert direction, contact direction, plug-in direction according to requests. The product is designed in accordance with IEC/EN61984、UL1059、CSA C22.2 No.158 standards.

.....01-12

PCB UNIVERSAL SCREW TERMINAL BLOCKS

PCB universal screw terminal blocks, this typical feature of the screw connection system is characterized by the easy connection and extremely high contact strengths. Provide the wire size from 0.08mm² to 35mm². Available with different pitches from 2.54mm to 15.0mm, and 3 wire insertion directions : 90°, 135°, 180°. The parts can be assembled by 2 ways and 3 ways, with the design level structures from 1 level to 4. The product is designed in accordance with IEC/EN60998、IEC/EN60947-7-4 UL1059 CSA C22.2 No.158 standards.

.....12-17

PCB SPRING TERMINAL BLOCKS

PCB Spring terminal blocks, available with two connection methods, cage clamp contact and dish clamp contact. It can be used instead of Printed Circuit universal screw terminal blocks, more flexible. The product is designed in accordance with IEC/EN60998、IEC/EN60947-7-4、UL1059、CSA C22.2 No.158 standards.

.....17-20

TRANSFORMER TERMINAL BLOCKS

Transformer terminal blocks,with structure design features of easy wire connection and reliable connection;also with snap foot allowing quick fixing to flat mounting rails 10x2mm or to snap-in devices of the winding frame.The product is designed in accordance with IEC/EN60998、UL1059、CSA C22.2 No.158 standards.

.....20

THROUGH-WALL TERMINAL BLOCKS

Through-wall terminal blocks, the design of structure is characterized by the easy connection and extremely high contact strengths. These connectors are available in all types of wires with the size from 0.5mm² to 95mm², and designed in accordance with IEC/EN60947、UL1059、CSAC22.2 No.158 etc.

FEED THROUGH TERMINAL BLOCKS

Feed through terminal blocks, connecting with two conductors easily and credibility. provide the wire size from 0.5mm² to 16mm². Available with fuse and without fuse. The product is designed in accordance with IEC/EN60998、UL1059、CSA C22.2 No.158 standards.

.....21-22

BARRIER TERMINAL BLOCKS

Barrier terminal blocks, connecting easily,can be mounted on PCB board,panel and and Dn Rail. Wire range from 0.5mm² to 300mm². Available with different pitches from 6.35 to 60mm, with cover and without cover. The product is designed in accordance with UL1059、CSA C22.2 No.158 standards.

.....22-27

DIN RAIL TERMINAL BLOCKS

Din Rail terminal blocks, available with three connection methods, Push-in connection, Spring Cage connection, Screw connection. The combination terminals connect two conductors easily and credibility. They are designed for fitting both U type and G type Din Rails. The product is designed in accordance with IEC/EN60947、UL1059、CSA C22.2 No.158 standards.

.....27-36

IP20 I/O SYSTEM

It is suitable for modular, field-bus independent distributed I/O systems. Users combine different digital input/output modules, analog input/output modules, power supply modules, etc. We can provide PROFINET, PROFibus-DP,EtherCAT,Modbus/TCP, etc.The product is designed in accordance with IEC/EN60947、UL1059、CSA C22.2 No.158 standards.

.....37

RELAY

It is an automatic switching component with isolation function.It is one of the most important control components in remote control, telemetry, communication, automatic control, electromechanical integration and power electronic equipment. Between the input and output of the relay, the input part is isolated, the function is processed, and the output part is driven by the intermediate mechanism (drive part).

.....37-38

INTERFACE MODULE

Interface Module,now we have connector Module Series, Relay Module series, Miniature Relay Module series and Soled State Relay Module series.

.....38-39

Marking System

Degson marking system, providing a complete solution for industrial site identification case. Our thermal transfer printers and laser printers provide customers with Terminal blocks marker, Cable marker, Device marker Printing Service.

Model	PM-00A
Order No	99020000001

Writing Machine

- Flexible drawing function to realize automatic calibration of various logo printing requirements.
- To achieve better marking effect, large-scale marking area, batch printing.

Model	PPT
Order No	99020000073(To be released)

Thermal Transfer Printer

- Support plate printing, marking the terminals is applicable to ZS and ZSF standard marker.
- Thermal transfer printing technology, quickly realize batch printing.

ENVIRONMENTAL POLICY

DEGSON realizes system regulation without lead in 2005 and has been granted ISO14001 in 2006. All the products conform to the European ROHS requirement.

DEGSON realizes the importance to protect environment resources, selfconsciously meets environment protection requirements for products and regards it as the responsibility.

Thus, we have made the following environment strategic policy :

- 1.To meet customers'demands and obey the national and local laws and regulations as well as other environmental protection requirements.
- 2.Take environmental protection as one criterion for continuing development of our company. Insist on fully development of quality, benefit and environmental protection.
- 3.Fully considering the factors which will influence the environment in the processes of product development, manufacturing, material usage and waste processing, establish management system of waste in order to improve the environment of our company.
- 4.To increase the employees' consciousness of environmental protection through training and to realize the continuing improvement of environment management system and the ability of environmental protection.
- 5.To make full use of resources and to decrease consumption of material in order to save energy.
- 6.To promise to our partners and society that we will make contribution to environment protection. There is only one Earth for our humanity.
- 7.To strive for making conservation-oriented and environment-friendly products through continuous innovation and developing new materials and technology.
